RE: Immunization Needs, Washington County Health System

Each student and assigned faculty member will be required to submit:

- * Evidence of a satisfactory physical examination (entrance requirement physical examination will be accepted)
- * Written documents of a negative Mantoux PPD test within the last 6 months; PPD positive individuals must submit written results of a chest x-ray obtained after PPD conversation
- * Laboratory evidence of measles or rubella immunity or documentation of receipt of two doses of MMR vaccine after the first birthday or documentation of physician diagnosed disease (individuals born before 1957 are automatically considered immune)
- * Knowledge of having had chicken pox or a positive chicken pox serologic titer
