**SCHOOL OF PHARMACY**

9/25, 9/30, 10/2, 10/9  
 20 NORTH PINE STREET  
 BALTIMORE, MD 21201

**Pharmacy-Based Immunization Delivery** is an innovative and interactive training program that teaches pharmacists the skills necessary to become a primary source for vaccine information and administration. The program teaches the basics of immunology and focuses on practice implementation and legal/regulatory issues.

**The purpose of this educational program:**

1. Provide comprehensive immunization education and training
2. Provide pharmacists with the knowledge, skills, and resources necessary to establish and promote a successful immunization service
3. Teach pharmacists to identify at-risk patient populations needing immunizations
4. Teach pharmacists to administer immunizations in compliance with legal and regulatory standards

**Pharmacy-Based Immunization Delivery** certificate training program is a Practice-based activity conducted in two parts – a self-study learning component and a live training seminar. A *Certificate of Achievement* will be awarded to participants who successfully complete all program components.

**Key learning objectives for the live training seminar:**

- Identify opportunities for pharmacists to become involved in immunization delivery.
- Describe how vaccines evoke an immune response and provide immunity.
- Identify the vaccines available on the U.S. market for each vaccine-preventable disease and classify each vaccine as live attenuated or inactivated.
- Outline the target groups for vaccination based on the Advisory Committee for Immunization Practices recommendations.
- Review patients' medical and immunization histories and determine vaccine recommendations based on current immunization schedules.
- Outline the steps involved in establishing a pharmacy-based immunization delivery program.
- Discuss the legal, regulatory, and liability issues involved with pharmacy-based immunization programs.
- Describe the signs and symptoms of adverse reactions that can occur after vaccination and the emergency procedures for management of patients with adverse reactions to vaccination.
- Describe the appropriate technique for administration of the live attenuated influenza vaccine.
- Demonstrate appropriate intramuscular and subcutaneous injection technique for adult immunization.

For a more complete list of program learning objectives, please go to APhA's website, [www.pharmacist.com/ctp](http://www.pharmacist.com/ctp).

**SEMINAR AGENDA**

- Registration/Check-in and Continental Breakfast
- Welcome, Introductions and Acknowledgements
- Program Overview
- The Importance of Vaccines and The Pharmacist's Role in Vaccine Delivery
- How Do Vaccines Prevent Disease?
- Vaccine-Preventable Diseases (Part I)
- Vaccine-Preventable Diseases (Part II)
- Identifying Vaccination Needs
- Establishing a Pharmacy-Based Immunization Program
- Practice Implementation
- Adverse Events Following Vaccination and Emergency Preparedness
- Vaccine Administration Technique
- Transitional/ Summary Remarks
- Skills Training and Assessment

**Instructors:**

**Cherokee Layson-Wolf PharmD**  
**Lisa Charneski PharmD**

**CONTINUING PHARMACY EDUCATION (CPE) CREDIT**

CPN: 202-0014; Expiration Date: 12/31/10  
 Successful completion of the live seminar component involves passing the final exam with a grade of 70% or higher and demonstrating competency in 2 intramuscular and 1 subcutaneous injection. Successful completion of this component will result in 8.0 contact hours of continuing pharmacy education credit (0.80 CEU).  
 ACEPE UAN: 202-000-09-001-L01-P

Successful completion of the self-study component involves passing the self-study assessment questions with a grade of 70% or higher and will result in 12.0 contact hours of continuing pharmacy education credits (1.2 CEU).  
 ACEPE UAN: 202-000-09-002-H01-P

The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

**Pharmacy-Based Immunization Delivery:** A Certificate Program for Pharmacists was developed by the American Pharmacists Association, and is supported in-part by an educational grant from VaxServe.

To register for this program, please complete and fax this form by March 20, 2009 to:  
 University of Maryland School of Pharmacy **ATTN: Morgan Davis Continuing Education Coordinator**  
 at 410-706-0761 mdavis@rx.umaryland.edu FAX:410-706-0761

**This program is limited to the first 25 registered participants.**
