DELIVERING MEDICATION THERAPY MANAGEMENT IN THE COMMUNITY

A National Certificate Training Program for Pharmacists

Developed by the American Pharmacists Association and the American Society of Consultant Pharmacists

Delivering Medication Therapy Management in the Community is an innovative and interactive training program that explores pharmacist's role in providing MTM services to patients. Pharmacists have a tremendous opportunity to receive reimbursement for monitoring and improving medication use in patients with complex medication regimens. The program teaches pharmacists the essential skills necessary to become a successful MTM practitioner. This certificate program will enhance pharmacists' clinical expertise in evaluating complicated medication regimens, identifying medication related problems, and making recommendations to patients, caregivers, and health care professionals.

Delivering Medication Therapy Management in the Community is conducted in two parts:

- A self-study learning component consisting of 4 modules
- A live interactive training seminar consisting of case studies and hands-on patient interview and assessment practice sessions

The goals of the program are to help participants:

- Obtain the clinical knowledge, skills, and motivation needed to establish MTM services for patients with complex drug regimens.
- Learn to conduct a thorough patient medication history, complete a personal medication record, and develop a medication action plan.
- Identify patient-specific medication related problems and address these concerns by establishing individualized medication treatment regimens.

To register for this certificate training program, please complete and return this form and tuition by **JUNE 27th, 2008** to the Maryland Chapter of ASCP either by **FAX: 410-465-7073** or **MAIL: 10222 Maple Glen Ct, Ellicott City, MD 21042**. For questions: 410-465-7011 or 410-706-3462.

This program is limited to the first 60 registered participants.

Name: _____ Position/Title: _____
Address: _____ Phone: _____
_____ Fax: _____
_____ E-mail: _____

Are you currently providing MTM services? **Y / N** If yes, do you receive compensation? **Y / N**
