

Pharmaceutical Care For Patients With Diabetes

Updated for 2009!

A CERTIFICATE PROGRAM FOR PHARMACISTS

HOSTED BY UNIVERSITY OF MARYLAND
SCHOOL OF PHARMACY

SUNDAY, OCTOBER 25, 2009 12:30-5:30PM

UNIVERSITY OF MARYLAND SCHOOL OF PHARMACY

Pharmaceutical Care for Patients with Diabetes is an innovative and intensive certificate program that focuses on the pharmacist's role in the area of diabetes management. The program, which emphasizes a health care team approach, seeks to foster the implementation of pharmaceutical care interventions that will promote disease self-management.

Goals of the program:

- Provide comprehensive instruction in the pathophysiology of diabetes
- Teach current approaches to the medical management of diabetic patients
- Introduce pharmacists to their role as a diabetes educator
- Provide pharmacists with information about becoming a Certified Diabetes Educator, and about other diabetes management-related credentialing opportunities

Pharmaceutical Care for Patients with Diabetes certificate training program is conducted in three parts – a self-study learning component, web-based case studies and key concepts, and a live training seminar. *A Certificate of Achievement will be awarded to participants who successfully complete all program components.*

Key learning objectives for the live training seminar are:

- Discuss medications used to treat diabetes
- Conduct a comprehensive patient self-management assessment
- Describe the elements of a diabetes self-management education program
- Develop a documentation and record-keeping system
- Provide diabetes self-care instruction, including use of devices, products, and equipment
- Design and implement a pharmacy-based diabetes education program

SEMINAR AGENDA

Welcome & Introduction
Program Objectives & Self-Study Review
Case Presentation & Treatment Goals
Treatment of Type 2 Diabetes
Survival Skills
Diabetic Foot Exam
Developing the Medication Plan of Care
Advanced Therapy Options
Closing Remarks

CPE CREDIT

Successful completion of the live seminar component involves passing the final exam with a grade of 70% or higher and demonstrating competency in self-injection techniques, diabetic foot exam, and blood glucose meters. Successful completion of these components will result in 5 contact hours of continuing pharmacy education credit (0.5 CEU).

ACPE UAN: 202-999-09-003-L01-P

Successful completion of the self-study component involves passing the self-study assessment with a grade of 70% or higher and will result in 18.0 contact hours of continuing pharmacy education credits (1.8 CEU).

ACPE UAN: 202-999-08-097-H01-P

The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Pharmaceutical Care for Patients with Diabetes was developed jointly by the American Pharmacists Association and the American Association of Diabetes Educators and supported in part by an independent educational grant from Merck and Co., Inc.
